

Teenage Wonder

By

Levi and Dawood

Louis, the teenage wonder, showed magnificent skills on the keyboard during the Christmas talent show at Parkwood Academy which has become known as Parkwood's got talent

Are our students destined for great things?

Well, we here at Parkwood Academy think so.

The 13 year old gained his inspiration from musician Quincy Jones, known as a famous music producer that has created incredible music with stars like Michael Jackson. Quincy's music was also well known for its use in the

background of the Austin Powers movies.

Louis composes his own music and this 13 year old boy is just one of many students in our school that has been born with a gift. Let's just hope this talented boy carries on with this magnificent gift and goes on to greater things in later life.
